SYSTEM AND METHOD FOR COMMUNICATION OF CHARACTER SETS VIA SUPPLEMENTAL OR ALTERNATIVE VISUAL STIMULI

ABSTRACT OF THE DISCLOSURE

The present invention relates generally to the representation of a characters or language constructs via supplemental or alternative visual stimuli. The present invention may be utilized to augment language acquisition via spelling or foreign language tutorials by associating unique colors with traditional representation of the language constructs. Additionally, the present invention may be utilized to implement computer scanning applications by representation of language constructs via unique colors and a simple geometric shape.
